Reference File LL-0451

This is a final order of the Water Resources Department.

Enclosed is LL 451 filed on November 13, 2000, and executed by signature of the Water Resources Director. The license is effective from December 19, 2000, through December 18, 2005.

The water will be used to make a slurry of dredge sand to be pumped from a barge to an upland containment area. The area of use is located in the Columbia River area of the North Portland Harbor.

Limited License 451 is subject to the following conditions:

USEPA SF

1286386

MARCEL H. The licensee shall give notice to the Watermaster within 15 days in advance of using water. The notice shall include the location of the diversion, place of use, the quantity of water to be diverted and the intended use.

MARCEL H. The licensee shall install a meter or other means approved by the watermaster and maintain a record of use, including the total number of hours of pumping, an estimate of the total quantity pumped; and the categories of beneficial use to which the water is applied. The record shall be submitted to the Watermaster upon request.

JOHN C. The licensee shall install, maintain and operate fish screening as identified by the Oregon Department of Fish and Wildlife to prevent fish from entering the proposed diversion. Please contact your local office of Oregon Department of Fish and Wildlife for information.

This is a final order in other than contested case. Pursuant to ORS 536.075 and OAR 137-004-080 and OAR 690-01-005 you may either petition the Director for reconsideration of this order or petition for judicial review of this order. As provided in ORS 536.075, this order is subject to judicial review under ORS 183.484. Any petition for judicial review of the order must be filed within the 60-day time period specified by ORS 183.484(2).

CHANDS The licensee shall install and maintain adequate treatment facilities meeting current DEQ requirements to remove sediment before returning water to the stream.

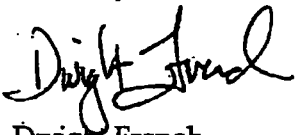

TERMINALS Please review the additional limitations as to the use of water described on page two of the limited license. Those are found in the NOTE section.

Remember, the use of water under the terms of this limited license is not a secure source of water. Water use can be revoked at any time it is determined the use causes injury to any other water rights or the fishery.

ERMAN Finally, upon project completion, the licensee shall submit the record of use and a description of the system that was used to the Water Resources Department.

If you need further assistance, please contact the Water Rights Section at the address or phone number printed on this letter.

Sincerely,

Dwight French
Water Rights Manager
